discusses the controversy between a declared war and an undeclared war and whether or not the president and congress has a right to send troops according to the constitution the author suggests that to this very day almost all u s laws about the appropriate constitutional control over using force face serious challenges from developments such as future weapons technology and information technology since they originated out of the eighteenth century

in fourteen essays supplemented by relevant sections of and amendments to the constitution and five federalist essays by hamilton provides the reader with the essential historical and political analyses of who and what shaped the presidency

in this provocative and readable volume eleven leading constitutional authorities challenge business as usual in american foreign policymaking for far too long they contend americans have acquiesced to presidential claims to sweeping executive powers in foreign affairs thanks to imperial minded presidents a weak willed congress and neglectful scholars these authors forcefully argue that the president is not the supreme crafter of foreign policy and that congress must provide more than a rubber stamp for the president s agenda unilateral presidential control of foreign relations they warn can pose a grave threat to our nation s welfare and is simply without constitutional warrant combining constitutional theory with keen historical insights these authors illuminate the roots of presidential abuse of executive power and remind us of the past and potential costs of such disregard for our unique system of checks and balances an essential guide for all concerned citizens and members of congress this volume should help revive a proper understanding of this crucial dimension of american democracy

a collection of works previously published 1955 1987

political scandals have always demonstrated the capacity of our executive officials for self inflicted injuries and the clinton administration was no exception unilateral warmaking claims of executive privilege and immunity and last minute pardons all tested the limits of presidential power while the excesses of the special prosecutor cast doubts on available remedies for eight years republicans and democrats engaged in guerrilla warfare aimed at destroying the careers

and lives of their adversaries while tests of presidential power were resolved by the courts resulting in a reshaping of the scope and power of the presidency itself this book examines the many controversial and important battles that led to the shrinking of the presidency under the law during the clinton administration located at the intersection of law and politics it helps readers understand the dramatic changes that took place in the relationship of presidential power to the law during the clinton years and shows how one president s actions and congressional and legal reactions to them have altered presidential prerogatives in ways that his successors cannot ignore the presidency and the law offers an assessment of changes in constitutional and legal understanding of the american presidency exploring such topics as war power executive privilege pardon power impeachment executive immunity independent counsel and campaign finance in examining these collisions between president and the law its distinguished contributors bring the lessons of watergate and iran contra into the clinton era and contribute to a madisonian view that presidents should not operate outside statutory and constitutional constraints while the essays offer several criticisms of that administration s exercise of power and its interpretation of constitutional provisions and law many of the authors have been supportive of clinton and his policy pursuits and all seek to examine the potential impact of the clinton administration without being predictive or legalistic they offer instead commentary analysis and criticism that examine the legality and constitutionality of president clinton s actions within a broader political and historical context the presidency is constitutionally weaker and politically more vulnerable than the office bill clinton assumed in 1993 and it remains to be seen what impact these changes will have on the presidency in the 21st century this book points the way to assessing that impact and is essential reading for anyone concerned with the future of our democracy

sequel to entangling alliance bibliographical references included in notes p 379 471

fisher chronicles the expansion of the president s power to make war

the first comprehensive english language history of the japanese imperial army based largely on japanese language sources traces the origins evolution and impact of the army as an engine of japan s regional and global ambitions and as a catalyst for the militarization of its

homeland

in the late 1930s a number of american women especially those allied with various peace and isolationist groups protested against the nation s entry into world war ii while their story is fairly well known margaret paton walsh reveals a far less familiar story of women who fervently felt that american intervention was absolutely necessary paton walsh recounts how the united states became involved in the war but does so through the eyes of american women who faced it as a necessary evil covering the period between 1935 and 1941 she examines how these women functioned as political actors even though they were excluded from positions of power through activism in women s organizations informal women s networks and even male dominated lobbying groups in the great debate over whether america should enter the war some women favored aid to the allies not because they hoped for war but because they hoped aid would forestall more direct u s involvement but also because they believed war was preferable to a nazi victory paton walsh shows that this activism involved some of the most prominent women of their day elizabeth cutter morrow whose son in law charles lindbergh was an isolationist spokesman supported the revision of the neutrality acts to allow the sale of arms to the allies and expressed her support in a national radio broadcast soon other women joined this debate esther brunauer of the aauw journalist dorothy thompson and organizations like the league of women voters and national women s trade union league broke from the pacifist tradition to advocate american aid for the allied cause focusing on the conflict in europe paton walsh shows how these women grasped the implications of the lend lease program for america s entry into the war but supported it nevertheless by late 1941 the women s division of the fight for freedom committee had been established no longer merely advocating aid to britain to keep american boys out of battle this organization supported direct american involvement in the war as a means of stopping nazi oppression while most historians have focused on women s pacifism paton walsh connects women more directly to world events and shows how those interventionists reformulated maternalist ideas to justify and explain their beliefs our war too is a story of american women trying to reconcile the irreconcilable to preserve both their principles and their peace it expands our understanding of women as political actors and thinkers about foreign policy as it sheds new light on american public opinion over the build up

to the war

praise for the print edition entries are well written an excellent addition
